

School Plan for Student Achievement (SPSA) Template

The School Plan for Student Achievement (SPSA) is meant to consolidate all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), pursuant to the California Education Code (EC) Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA).

The purpose of the SPSA is to increase the overall effectiveness of the school program by crafting a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement.

The School Site Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications in the plan to reflect changing needs and priorities, as applicable, pursuant to EC 52853(b) and 52855.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. The SPSA provides schools with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state's Local Control Funding Formula (LCFF).

LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement.

School Vision and Mission

The Wright Charter School is founded on the principles of Eco-Literacy: the understanding that every living system is related to and affected by every other living system. Eco-Literacy promotes the development of social, emotional and ecological intelligence through an ever evolving understanding of the relationship between and among all living systems.

Our mission is to foster in our students the desire and capacity to live and contribute responsibly in society and to envision and achieve their goals, both in their own lives and as stewards of the planet. Our students will be educated to meet or exceed grade level expectations and mastery of core academic standards. Our students will develop an understanding of their responsibilities as global citizens and be educated to be contributing members of a larger society. We strive to identify, nurture and support the unique capabilities of every student.

Our vision is to create an equitable and encouraging environment that empowers every child to work to his or her potential, builds basic skills, kindles and nourishes curiosity, teaches problem solving, encourages children to love learning, and inspires both teachers and children to pursue academic challenges. Wright Charter School provides opportunities for children to develop personal and civic responsibility, self-discipline, necessary life skills for continuous education and economic independence, and a positive code of ethics supported by the community at large. We respect each individual, honor differences, and we strive to strengthen the community by educating its children and engaging families in the educational process.

School Profile

Wright Charter School is the original of three K-6 elementary schools in the Wright School District. Beginning in the school year 2009-2010, Wright Charter School expanded its services to students in grades seven and eight. We are very proud to offer a small school environment to students grades TK-8.

Wright Charter School serves approximately 460 students who represent a diverse population. Approximately sixty-five percent of Wright Charter School students participate in the Federal Government's Free and Reduced Lunch Program. Thirty-five percent of our students are English Language Learners. The majority of our second language learners speak Spanish as their primary language.

Wright Charter School proudly offers a range of services to meet our students' diverse learning needs. Our classes include twenty regular education classes, a Resource Specialized Program, music, PE, teacher-led electives and state-of-the-art technology. In addition, we offer students Speech and Language services, English Language Learner services, Title 1 Reading services, tutoring services, and counseling. We have a large multipurpose room, which is used for assemblies, school events, sports, music, and as a cafeteria for breakfast and lunch. Our students are fortunate to have meals prepared for them on site in our school kitchen by experienced school food service employees.

Through a partnership with CalServes, our school also offers students an after school program in which over one hundred fifty students participate in enrichment activities and receive help with homework, math and reading practice. The Extended Child Care Coalition provides before and after school care for students.

Educational Partner Involvement

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

Involvement Process for the SPSA and Annual Review and Update

With other Wright Elementary School District administrators through Admin Retreats, Admin weekly meetings, and other time together, careful consultation and planning took place for this SPSA/Annual Review and Update. In addition, Wright Charter School staff was also involved through Professional Development Days, Data Meetings, staff meetings, and other times through the school year. Our parent stakeholders have been involved through ELAC meetings and PTC meetings.

Conclusions based on this data:

1. Regrettably, student enrollment dropped at WCS. There are a number of factors: first, COVID has created chaos with families throughout Santa Rosa and the world; second, wild fires continue to plague Santa Rosa and this has created a housing shortage and a serious disruption for many of our families.
2. Santa Rosa is an expensive location to live and our families struggle with the high costs associated with living in here.

3. We went from having three Grade 6 classes to just two Grade 7 classes for a loss of 30 students in 2018-2019. In addition, we did not get the numbers for a full TK class this school year.

Reclassified Fluent English Proficient (RFEP)	34	18		18.0%	11.9%	

Conclusions based on this data:

1. Our EL population has remained steady for the last three years and is expected to continue at near the current levels for the upcoming years.
2. Our amazing ELD Teacher, Ms. De Silva, continues to produce impressive results in supporting students to become "Reclassified Fluent English Proficient (RFEP)."

Conclusions based on this data:

1. Many factors contribute to student performance on this assessment, including familiarization with the technology and format of the test, accessibility of embedded accommodations, match-up between curriculum and test content, match-up between the format of the questions and the level of competence students had achieved using the format prior to the test administration. The presence of so many contributing factors makes it difficult to ascertain precisely what the test is measuring. The continued increase in percent of students above, at or near standard would seem to indicate that familiarization and comfort with the technology and format should be at least in part considerations when analyzing test results.
2. As teacher familiarization with the factors mentioned above that affect student performance increases and informs instruction we expect to see increases in the percentages of students achieving standards as measured by the CAASPP.
3. We have shown steady improvement year to year. CAASPP was not give last year 2019-2020 due to COVID pandemic.

2019-20 Data:

Executive Order N-30-20 was issued which waived the assessment, accountability, and reporting requirements for the 2019-2020 school year, thus no data is available to report for this year.

Conclusions based on this data:

1. Many factors contribute to student performance on this assessment, including familiarization with the technology and format of the test, accessibility of embedded accommodations, match-up between curriculum and test content, match-up between the format of the questions and the level of competence students had achieved using the format prior to the test administration. The presence of so many contributing factors makes it difficult to ascertain precisely what the test is measuring. The continued increase in percent of students above, at or near standard from would seem to indicate that familiarization and comfort with the technology and format should be at least in part considerations when analyzing test results.
2. As teacher familiarization with the factors mentioned above that affect student performance increases and informs instruction we expect to see increases in the percentages of students achieving standards as measured by the CAASPP
3. We have shown steady improvement year to year. CAASPP was not give last year 2019-2020 due to COVID pandemic.

2019-20 Data:

Executive Order N-30-20 was issued which waived the assessment, accountability, and reporting requirements for the 2019-2020 school year, thus no data is available to report for this year.

Conclusions based on this data:

1. We are pleased with our ELPAC Results and, with our new EL curriculum: English 3D, we look forward to greater success this year and beyond.
2. Additionally, we have renewed our emphasis on ELD throughout the school and should see better results going forward.
3. All teachers are now incorporating integrated and designated ELD (dELD) into their classrooms.

School and Student Performance Data

Student Population

For the past two years, many state and federal accountability requirements were waived or adjusted due to the impact of the COVID-19 pandemic on LEAs, schools, and students. Beginning with the 2021-22 school year, the requirements to hold schools and districts accountable for student outcomes has returned with the release of the 2022 California School Dashboard (Dashboard). The Every Student Succeeds Act is requiring all states to determine schools eligible for support. Similarly, under state law, Assembly Bill (AB) 130, which was signed into law in 2021, mandates the return of the Dashboard using only current year performance data to determine LEAs for support. Therefore, to meet this state requirement, only the 2021-22 school year data will be reported on the 2022 Dashboard for state indicators. (Data for Change [or the difference from prior year] and performance colors will not be reported.)

This section provides information about the school's student population.

Conclusions based on this data:

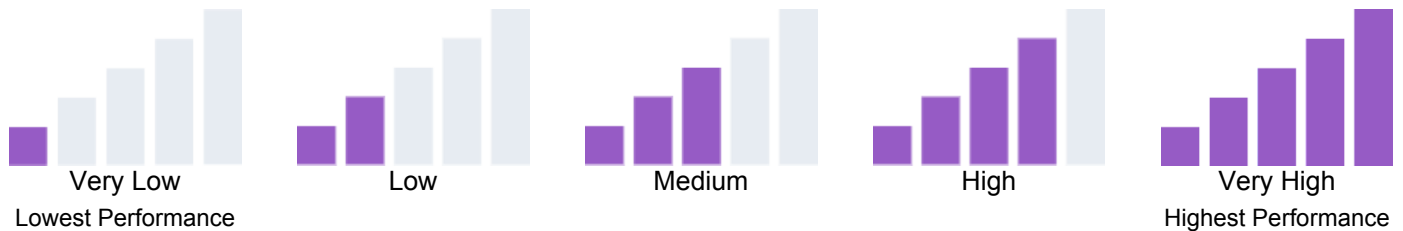

1. The data clearly shows that we have a very diverse student population that needs a safe and secure place to come to each day to receive many support services: academic, social-emotional, health, and nutrition.
2. We provide many services to support our students so that they can learn each day.

School and Student Performance Data

Overall Performance

Due to the COVID-19 pandemic, state law allows the 2022 Dashboard to only display the most current year of data (also known as Status). For this year only, performance levels will be reported using one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low) for state measures. Please note that the Status levels associated with the Chronic Absenteeism and Suspension Rate Indicators are reversed (ranging from Very Low, Low, Medium, High, and Very High). Information regarding this year's Dashboard data is available within the [Dashboard Communications Toolkit](#).

Because performance on state measures is based on current year (i.e., 2021-22) results only for the 2022 Dashboard, the color dials have been replaced with one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low).

2022 Fall Dashboard Overall Performance for All Students

Conclusions based on this data:

1. According to the most recent CA School Performance Data Dashboard, (2019), our WCS performance remained steady. ELA showed the greatest improvement. The suspension rate went up, due to two very unusual student issues and should not be an issue in the future. Many of our student subgroups were in the Green and Blue performance indicator areas. We had ZERO student suspensions in 2019-2020 or in 2020-2021.

2. Our most recent STAR 360 assessments in both Reading and Math are showing improvement as well; however, CAASPP was not given in 2019-2020 or 2020-2021 due to COVID pandemic.
3. Our Bilingual Community Liaison has helped identify, track, and monitor the absences of students with Chronic Absenteeism. Thus far, we have made improvements in their attendance through contact with families and purposeful intervention at school.

This section provides number of student groups in each level.

This section provides a view of how well students are meeting grade-level standards on the English Language Arts assessment. This measure is based on student performance on either the Smarter Balanced Summative Assessment or the California Alternate Assessment, which is taken annually by students in grades 3–8 and grade 11.

2022 Fall Dashboard English Language Arts Performance by Race/Ethnicity

This section provides additional information on distance from standard for current English learners, prior or Reclassified English learners, and English Only students in English Language Arts.

2022 Fall Dashboard English Language Arts Data Comparisons for English Learners

Current English Learner	Reclassified English Learners	English Only
<p style="background-color: #e6f2ff;">40.3 points below standard</p> <p>85 Students</p>	<p style="background-color: #e6f2ff;">9.8 points above standard</p> <p>62 Students</p>	<p style="background-color: #e6f2ff;">7.6 points below standard</p> <p>104 Students</p>

Conclusions based on this data:

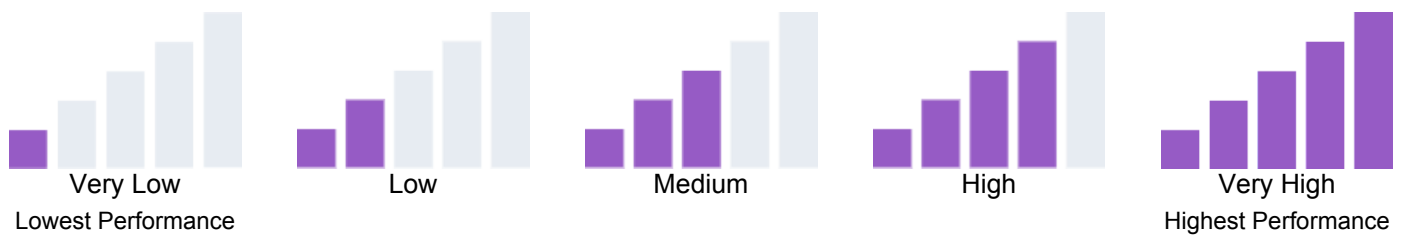

1. We will continue the implementation of the ELA/ELD program Benchmark Advance with its integrated and designated ELD component that will enable EL students to access CCSS and ELD standards for the purpose of gaining academic content knowledge and English language proficiency. A new ELD curriculum, English 3D, has been purchased for use by the ELD teachers with EL students to acquire academic language and writing skills.
2. We are working on an articulated TK-8 writing program.
3. We believe that a district-wide standard-based K-8 report card will help focus and articulate our ELA curriculum.

Information regarding this year's Dashboard data is available within the [Dashboard Communications Toolkit](#).

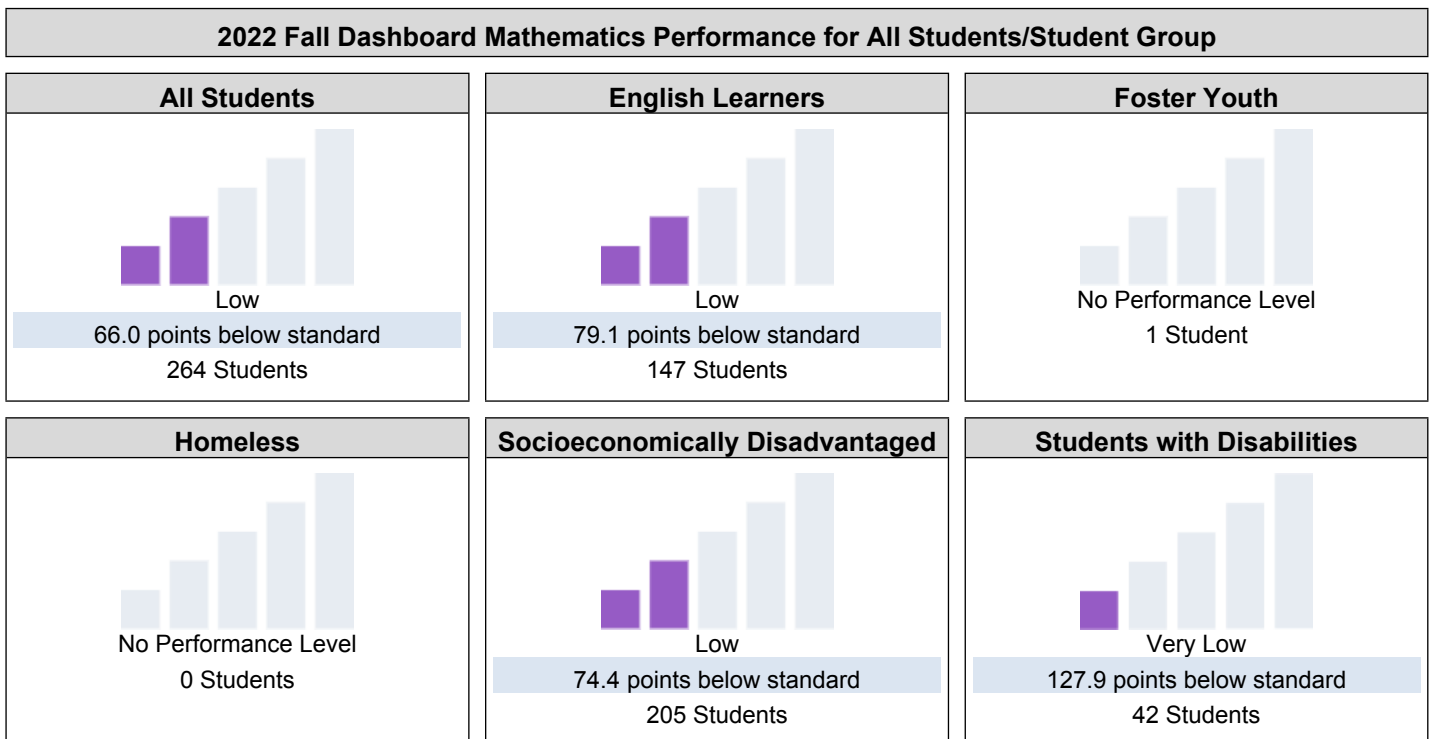

Because performance on state measures is based on current year (i.e., 2021-22) results only for the 2022 Dashboard, the color dials have been replaced with one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low).

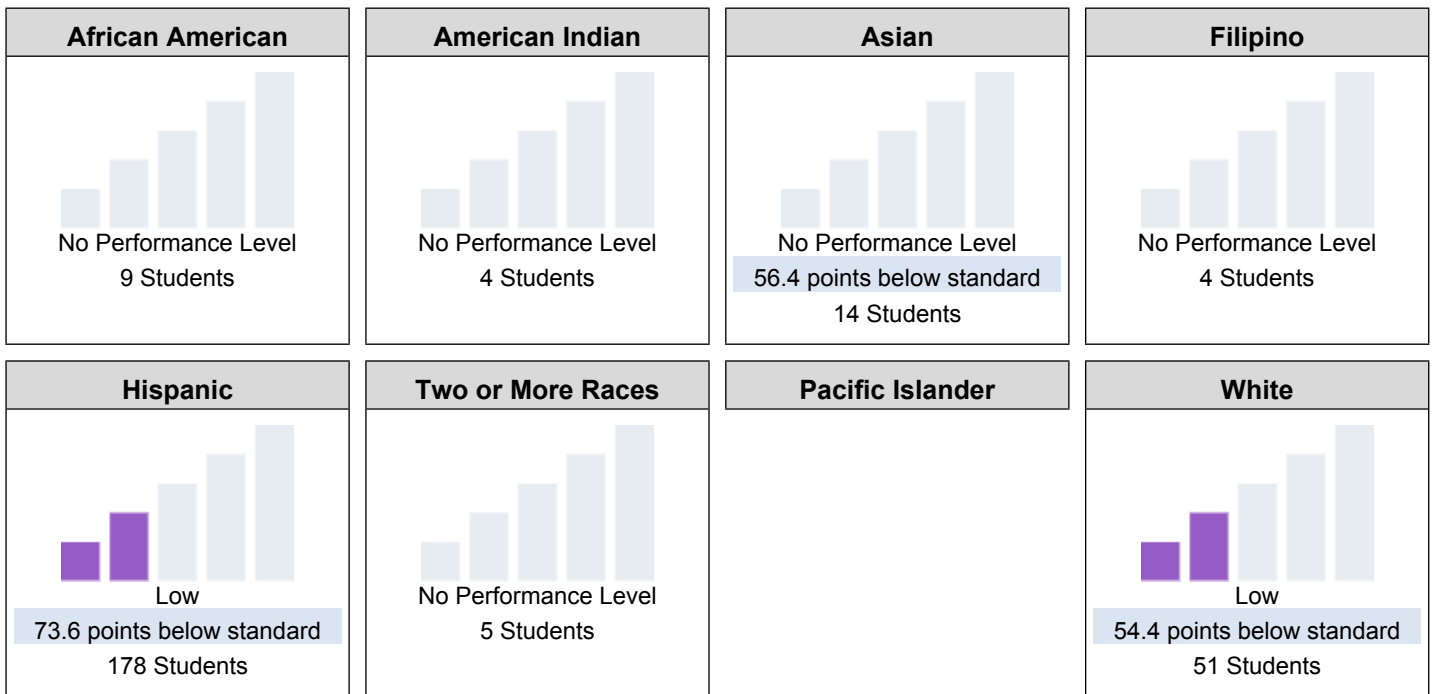

This section provides number of student groups in each level.

This section provides a view of how well students are meeting grade-level standards on the Mathematics assessment. This measure is based on student performance either on the Smarter Balanced Summative Assessment or the California Alternate Assessment, which is taken annually by students in grades 3–8 and grade 11.

2022 Fall Dashboard Mathematics Performance by Race/Ethnicity

This section provides additional information on distance from standard for current English learners, prior or Reclassified English learners, and English Only students in mathematics

2022 Fall Dashboard Mathematics Data Comparisons for English Learners

Current English Learner	Reclassified English Learners	English Only
82.8 points below standard 85 Students	74.1 points below standard 62 Students	52.5 points below standard 103 Students

Conclusions based on this data:

1. The District also adopted a new CC-aligned math K-8 math program: My Math (K-Grades 5) and California Math (Grades 6-8). We are rigorously looking at data to best use this program and improve our students' CAASPP performance.
2. In our third year using My Math and California Math, we continue to look for opportunities to better align our efforts and have the benchmarks reflect growth through the school year and inform teaching.
3. We believe that a district-wide standard-based K-8 report card will help focus and articulate our Math curriculum.

School and Student Performance Data

Academic Performance English Learner Progress

Due to the COVID-19 pandemic, state law allows the 2022 Dashboard to only display the most current year of data (also known as Status). For this year only, performance levels will be reported using one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low) for state measures. Please note that the Status levels associated with the Chronic Absenteeism and Suspension Rate Indicators are reversed (ranging from Very Low, Low, Medium, High, and Very High). Information regarding this year's Dashboard data is available within the [Dashboard Communications Toolkit](#).

This section provides information on the percentage of current EL students making progress towards English language proficiency or maintaining the highest level.

2022 Fall Dashboard English Learner Progress Indicator

This section provides a view of the percentage of current EL students who progressed at least one ELPI level, maintained ELPI level 4, maintained lower ELPI levels (i.e, levels 1, 2L, 2H, 3L, or 3H), or decreased at least one ELPI Level.

2022 Fall Dashboard Student English Language Acquisition Results

Decreased One ELPI Level	Maintained ELPI Level 1, 2L, 2H, 3L, or 3H	Maintained ELPI Level 4	Progressed At Least One ELPI Level
7.0%	24.6%	2.6%	65.8%

Conclusions based on this data:

1. We will continue the implementation of the ELA/ELD program Benchmark Advance with its integrated and designated ELD component that will enable EL students to access CCSS and ELD standards for the purpose of gaining academic content knowledge and English language proficiency. A new ELD curriculum, English 3D, has been purchased for use by the ELD teachers with EL students to acquire academic language and writing skills.
2. All K-8 teachers have designated ELD instruction as part of their regular program.

2022 Fall Dashboard Chronic Absenteeism by Race/Ethnicity

Conclusions based on this data:

1. We will continue our social-emotional programs: Toolbox, BEST, and Restorative Practices. And, collectively, we will work on our student absenteeism; however, COVID and Distance Learning created challenges to provide the best social-emotional support that we are known for.

2. Our Bilingual Community Liaison helped identify, track, and monitor the absences of students with Chronic Absenteeism and we have made improvement in their attendance through contact with families and purposeful intervention at school. We have continued these efforts this school year; however, our BCL left in October and our new BCL arrived end of January and is just getting up to speed with tracking student attendance.

Our bilingual community liaison (BCL), administration, teachers, and counselor will continue to support struggling families in getting students to school and on time, translating conferences, IEPs, and other meetings, and providing links to a variety of community resources which may include medical care, dental care, and accessing government agencies.

3. WCS is a safe and warm environment for each of our students. We are their home away from home: we are student-centered family-like school and on our most recent 2019-2020 CA Healthy Kids Survey 97% of the students said that they feel school is a safe place.

Goal 3

Subject

Literacy

Goal Statement

There will be an increased focus on early literacy skills in grades TK-3.

LCAP Goal

All students will read at grade level by the end of third grade.

Basis for this Goal

Distance learning had a far greater negative impact on the lower than on the upper grades. Research shows a positive correlation with positive academic outcomes when a child is able to read at grade level by third grade. These two factors made Goal 3 a priority for the District

Expected Annual Measurable Outcomes

Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

There were no substantive differences in planned actions and actual implementation of these actions.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

The Reading teacher was instrumental in organizing and teaching in the Accelerated Learning Blocks, and working with our Title I students in reading. Adding the Reading Aide expanded the capacity of the program. While we would have like to see more improvement in our reading scores, we must keep two factors in mind: 1) the last time many of our 3rd graders received direct, in-person, instruction they were mid-way through 1st grade; and 2) Schools were hit hard by both the Delta and then Omicron variant between October and the end of February - during this time absenteeism soared to over 30% on many days and much instruction was lost.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

Change in CBOs during the 2021-22 school year created areas where: Budgets were not set up for some planned LCAP actions

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

To address teacher faculty concerns about low attendance, the District will fund a "positive attendance" campaign out of one-time dollars in 2022. To accelerate progress to ward all students reading at grade level by grade three the district will add a year of school (UTK) for all 4 year olds (space allowing).

School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

- 1 School Principal
- 2 Classroom Teachers
- 2 Other School Staff
- 5 Parent or Community Members
- 0 Secondary Students

Name of Members	Role
Stefan Schaeffer	Principal
Brian Belding	Classroom Teacher
Chalice Harkey	Classroom Teacher
Ellen Desmond	Other School Staff
Sandy Ramirez Cervantes	Other School Staff
Brandii Magliulo	Parent or Community Member
Emily Gaines	Parent or Community Member
Jolisa Denieliom	Parent or Community Member
Justin Phillips	Parent or Community Member
Mickelle Bond	Parent or Community Member

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

Recommendations and Assurances

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

Signature

Committee or Advisory Group Name

English Learner Advisory Committee

The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.

This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

This SPSA was adopted by the SSC at a public meeting on 04/11/2023.

Attested:

Principal, Mr. Stefan Schaeffer on 04/11/2023

Educational Partner Involvement

Meaningful involvement of parents, students, and other stakeholders is critical to the development of the SPSA and the budget process. As such, the SPSA should be shared with, and schools should request input from, school site-level advisory groups, as applicable (e.g., English Learner Advisory Councils, student advisory groups, etc.).

Describe the process used to involve advisory committees, parents, students, school faculty and staff, and the community in the development of the SPSA and the annual review and update.

Goals, Strategies, & Proposed Expenditures

In this section a school provides a description of the annual goals to be achieved by the school. This section also includes descriptions of the specific planned strategies/activities a school will take to meet the identified goals, and a description of the expenditures required to implement the specific strategies and activities.

Goal

State the goal. A goal is a broad statement that describes the desired result to which all strategies/activities are directed. A goal answers the question: What is the school seeking to achieve? A school may number the goals using the "Goal #" for ease of reference.

Basis for this Goal

Describe the basis for establishing the goal. The goal should be based upon an analysis of verifiable state data, including state indicator data from the California School Dashboard (Dashboard) and data from the School Accountability Report Card, and may include any data voluntarily developed by districts to measure pupil achievement.

Expected Annual Measurable Outcomes

Identify the metric(s) and/or state indicator(s) that the school will use as a means of evaluating progress toward accomplishing the goal. A school may identify metrics for specific student groups. Include in the baseline column the most recent data associated with the metric or indicator available at the time of adoption of the SPSA. The most recent data associated with a metric or indicator includes data reported in the annual update of the SPSA. In the subsequent Expected Outcome column, identify the progress the school intends to be make in the coming year.

Planned Strategies/Activities

Describe the strategies and activities being provided to meet the described goal. Strategies and activities that are implemented to achieve the identified goal may be grouped together. A school may number the strategy/activity using the "Strategy/Activity #" for ease of reference.

A school receiving funds allocated through the ConApp is required to describe in their strategies and activities how they will address specific state and federal requirements. A list of these requirements may be found in Appendix A: Plan Requirements for Schools Funded Through the ConApp. At a minimum a school receiving funds allocated through the ConApp must address these requirements; however, a school may describe additional strategies/activities as well.

Students to be Served by this Strategy/Activity

Indicate in this box which students will benefit from the strategies/activities by indicating “All Students” or listing one or more specific student group(s) to be served.

Proposed Expenditures for this Strategy/Activity

For each strategy/activity, list and describe the proposed expenditures for the school year to implement these strategies/activities, including where those expenditures can be found in the school’s budget. The school should reference all fund sources for each proposed expenditure and should provide budget references as an object code or an object code description.

Proposed expenditures that are included more than once in a SPSA should be indicated as a duplicated expenditure and include a reference to the goal and strategy/activity where the expenditure first appears in the SPSA.

Annual Review and Update

The planned goals, expected outcomes, planned strategies/activities, and proposed expenditures must be copied verbatim from the previous year’s approved SPSA. Minor typographical errors may be corrected.

Annual Measurable Outcomes

For each goal in the prior year, provide the metric/indicators, the expected outcomes, and the actual outcomes; review the actual outcomes as compared to the expected outcomes identified in the prior year for the goal.

Strategies/Activities

Identify the planned strategies/activities and the proposed expenditures to implement these strategies/activities toward achieving the described goal, then identify the actual strategies/activities implemented to meet the described goal and the estimated actual expenditures to implement the strategies/activities. As applicable, identify any changes to the student groups served.

Analysis

Using actual outcome data, including state indicator data from the Dashboard, analyze whether the planned strategies/activities were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the strategies/activities to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process.
- Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.
- Explain any material differences between Proposed Expenditures and Estimated Actual Expenditures. Minor variances in expenditures or a dollar-for-dollar accounting is not required.
- Describe any changes that will be made to the goal, expected annual measurable outcomes, metrics/indicators, or strategies/activities to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard, as applicable. Identify where those changes can be found in the SPSA.

Budget Summary and Consolidation

In this section a school provides a brief summary of the funding allocated to the school through the ConApp and/or other funding sources as well as the total amount of funds for proposed expenditures described in the SPSA. The Budget Summary is required for schools funded through the ConApp. The Consolidation of Funds is required for a school receiving funds allocated through the ConApp and consolidating those funds as part of a schoolwide program.

Budget Summary

A school receiving funds allocated through the ConApp should complete the Budget Summary as follows:

- **Total Funds Provided to the School Through the Consolidated Application:** This amount is the total amount of funding provided to the school through the ConApp for the school year. The school year means the fiscal year for which a SPSA is adopted or updated.
- **Total Funds Budgeted for Strategies to Meet the Goals in the SPSA:** This amount is the total of the proposed expenditures from all sources of funds associated with the strategies/activities reflected in the SPSA. To the extent strategies/activities and/or proposed expenditures are listed in the SPSA under more than one goal, the expenditures should be counted only once.

A school may include additional information or more detail.

Consolidation of Funds

A school receiving funds allocated through the ConApp and consolidating those funds as part of a schoolwide program is required to include a list of state and local programs and other federal programs that the school will consolidate in the schoolwide program. A list of commonly consolidated state and federal programs is provided in Appendix B: Select State and Federal Programs. List the federal funding source(s) and the amount(s) being consolidated in the schoolwide program, then list the state and/or local funding source(s) and the amount(s). Adjust the table as needed.

Appendix A: Plan Requirements for Schools Funded Through the ConApp

Basic Plan Requirements

A school receiving funds allocated through the ConApp is required to develop a SPSA. The content of a SPSA must be aligned with school goals for improving student achievement. School goals must be based upon an analysis of verifiable state data and may include any data voluntarily developed by districts to measure student achievement.

The SSC is required to develop the SPSA, which must address each of the following, as applicable:

1. A description of curricula, instructional strategies and materials responsive to the individual needs and learning styles of each student (described in the Strategies/Activities).
2. A description of instructional and auxiliary services to meet the special needs of non-English-speaking or limited-English-speaking students, including instruction in a language these students understand; educationally disadvantaged students; gifted and talented students; and students with exceptional needs (described in the Strategies/Activities).
3. A description of a staff development program for teachers, other school personnel, paraprofessionals, and volunteers, including those participating in special programs (described in the Strategies/Activities).
4. An identification of the schools' means of evaluating progress toward accomplishing its goals (described in the Expected Annual Measurable Outcomes) and an ongoing evaluation of the educational program of the school (described in the Annual Review and Update).
5. A description of how funds provided to the school through the ConApp will be used to improve the academic performance of all pupils to the level of state performance goals (described in the Proposed Expenditures for Strategies/Activities).
6. The proposed expenditures of funds available to the school through the programs described in EC Section 52851. For purposes of this subdivision, proposed expenditures of funds available to the school must include, but not be limited to, salaries and staff benefits for persons providing services for those programs (described in the Proposed Expenditures for Strategies/Activities).
7. The proposed expenditure of funds available to the school through the federal Improving America's Schools Act of 1994 and its amendments. If the school operates a state-approved schoolwide program in a manner consistent with the expenditure of funds available to the school pursuant to EC Section 52851, employees of the schoolwide program may be deemed funded by a single cost objective.
8. A description of how state and federal law governing programs identified in EC Section 64000 will be implemented, as applicable (described in the Strategies/Activities).
9. A description of any other activities and objectives as established by the SSC (described in the Strategies/Activities).

The SPSA, including proposed expenditures of funds allocated to the school through the ConApp, must be reviewed annually and updated by the SSC.

Authority cited: EC sections 64001(f)-(g) and 52853(a)(1)-(7).

Schoolwide Program Requirements

A school receiving funds allocated through the ConApp and operating a schoolwide program (SWP) must describe how the school will carry out each of the following components:

1. A description of the strategies that the school will be implementing to address school needs, including a description of how such strategies will
 - a. provide opportunities for all students, including socioeconomically disadvantaged students, students from major racial and ethnic groups, students with disabilities, and English learners, to meet the challenging state academic standards.
 - b. use effective methods and instructional strategies based on scientifically based research that
 - i. strengthen the core academic program in the school;
 - ii. provide an enriched and accelerated curriculum;
 - iii. increase the amount and quality of learning time;
 - iv. include strategies for meeting the educational needs of historically underserved populations;
 - v. help provide an enriched and accelerated curriculum; and
 - vi. are consistent with, and are designed to implement, state and local improvement plans, if any.
 - c. address the needs of all students in the school, but particularly the needs of those at risk of not meeting the challenging state academic standards, through activities which may include the following:
 - i. strategies to improve students' skills outside the academic subject areas;
 - ii. preparation for and awareness of opportunities for postsecondary education and the workforce;
 - iii. implementation of a schoolwide tiered model to prevent and address problem behavior;
 - iv. professional development and other activities for teachers, paraprofessionals, and other school personnel to improve instruction and use of data; and
 - v. strategies for assisting preschool children in the transition from early childhood education programs to local elementary school programs.
2. A description of how the school will determine if school needs have been met (described in the Expected Annual Measurable Outcomes and the Annual Review and Update).
3. A description of how the school will ensure instruction by highly qualified teachers and provide ongoing professional development, including
 - a. strategies to attract highly qualified teachers;
 - b. providing high-quality and ongoing professional development that is aligned with the state's academic standards for teachers, principals, paraprofessionals and, if appropriate, pupil services personnel, parents, and other staff, to enable all students in the school to meet the state's academic standards;
 - c. the devotion of sufficient resources to effectively carry out professional development activities; and
 - d. the inclusion of teachers in professional development activities regarding the use of academic assessments to enable them to provide information on, and to improve, the achievement of individual students and the overall instructional program.
4. A description of how the school will ensure parental involvement in the planning, review, and improvement of the schoolwide program plan (described in Educational Partner Involvement and/or Strategies/Activities).
5. A description of the activities the school will include to ensure that students who experience difficulty attaining proficient or advanced levels of academic achievement standards will be provided with effective, timely additional support, including measures to
 - a. Ensure that those students' difficulties are identified on a timely basis; and
 - b. Provide sufficient information on which to base effective assistance to those students.
6. For an elementary school, a description of how the school will assist preschool students in the successful transition from early childhood programs to the school.
7. A description of how the school will use resources to carry out these components (described in the Proposed Expenditures for Strategies/Activities).
