August 2019 (Revised)

Dear Parent/Guardian,

The Healthy Schools Act of 2000 that all public schools in California must at the beginning of each school year provide an annual notification to parents of their planned herbicide use. It also requires school districts to set up a registry so that concerned parents can sign up for advanced written notification prior to the application of any pesticide. Lastly, this new law requires school districts to post signs where herbicides are applied 24 hours before the application and to leave those signs in place for a 72-hour period after the application.

So that we maintain full compliance with the Healthy Schools Act, Wright Elementary School District has set up a registry procedure to allow those parents who would like to receive prior notification of our intent to use herbicides in or around our schools. Those who would like to register with the school district can contact the district office at jwebb@wrightesd.org.

The Wright Elementary School District will be applying the following herbicides on one or more of its school facilities:

Name of Herbicide (Common Name)	Active Ingredient(s)
Florel® Brand Growth Regulator EPA Reg. No. 54705-8 EPA Est. No. 48498-CA-1	03.9% Ethephon [(2-chlorethyl) phosphonic acid] <u>96.1%</u> Other Ingredients 100.0% TOTAL *This product contains 0.33 lbs. ethephon per gallon.
SUPPRESS® Herbicide EC	47.0% Ácido Caprílico 32.0% Ácido Caprico <u>21.0%</u> Other Ingredients 100.0% TOTAL

You can find more information regarding these herbicides and herbicide use reduction at the Department of Pesticide Regulation's Web site at <http://www.cdpr.ca.gov>.

You can also find additional information regarding these herbicides at the Department of Pesticide Regulation's School Integrated Pest Management Web site at <http://www.cdpr.ca.gov/schoolipm>.
