

Clever Login Instructions (Students)

Clever is a website that provides one-login access to our school district's learning applications. Whether it's from home or from school, a student can access the programs by entering only their school email and password. All of the learning applications' username and passwords are conveniently saved in Clever.

Clever Limitations

Clever is only available for desktop computers running Chrome or Firefox browsers, chromebooks, and iPads running IOS 10 or above. Clever is not supported by older Android tablets.

On-Campus Access for Students.

Students: After logging into your Chromebook, click the "Home" button at the top left of your browser.

At Home or Off-Campus for Students

1. For the best experience with using Clever, we recommend that the Clever extension be installed on your browser.

For Chrome browser:

<https://chrome.google.com/webstore/detail/clever/nopfnnpnopgmcnkjchnlpomggcdjfe?hl=en>

For Firefox browser:

<https://addons.mozilla.org/en-US/firefox/addon/clever-portal/?src=search>

2. Before you start you will need your **school email** and your **school email password**. If you are not sure what it is, please ask your child's teacher for it.

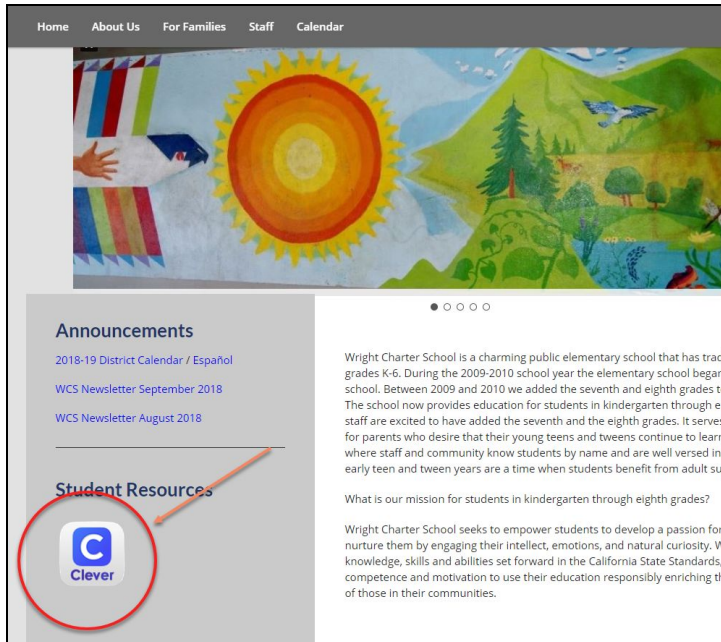

Go to your child's school website:

Jxwilson.org

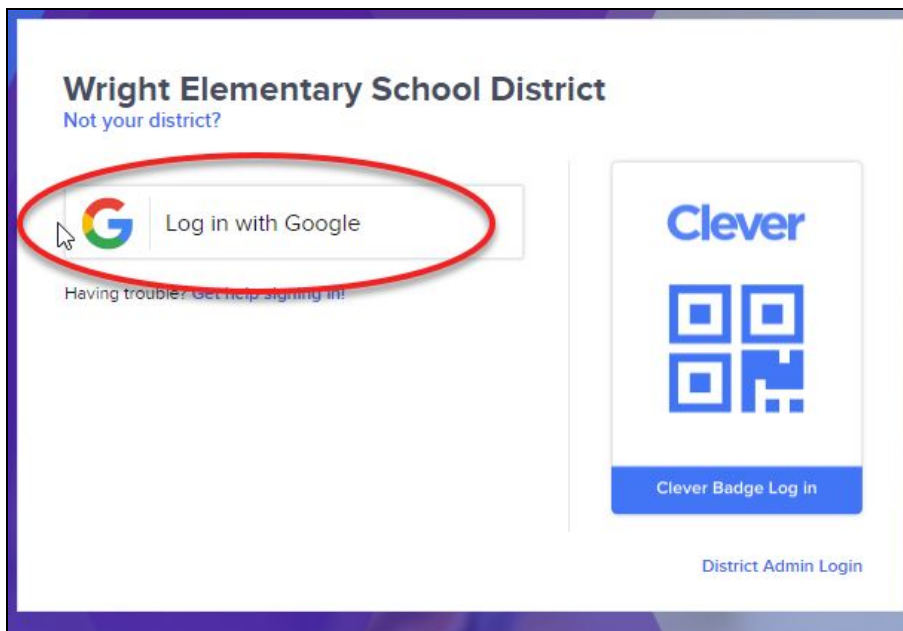

RobertLStevens.org

wrightelementary.org

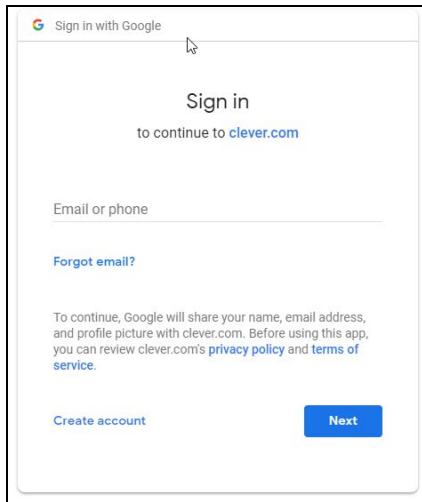

3. Scroll until you see “Student Resources” and click on the Clever app icon.

4. Click on the button “Log in with Google”. You will then be automatically directed to Clever’s portal.

5. Enter your child's school email "firstinitiallastnameuserid@wrightesd.org" and then their school email password.

6. You are now logged in! If you are having trouble accessing the apps please contact your child's teacher for further assistance.
